Glides & Casters, a division of LCS Products, is a chair accessories company specializing in unique products for schools. We are proud to introduce our latest innovation: the SNAP-N-LOC Glide Cap. Here are some facts you should know:

- ✓ The cap has two halves connected by a hinge. The top half is slotted and slides over the original glide shaft. The bottom half contains the felt and hinges perfectly to contain the metal or nylon bottom of the glide. When you snap and lock the two halves together, it creates a Felt Glide Cap that will stay in place permanently.
- ✓ Never buy another glide cap again. Once the cap is in place, all you need to do is replace the felt. The felts are just a fraction of the cost of our inexpensive glide caps.
- ✓ Our new SNAP-N-LOC felt insert chair caps fit 95% of all school chairs, desks and tables and are unmatched in the industry.
- ✓ These new caps can be installed in seconds without any tools. Install a 4-legged chair in under 30 seconds!
- ✓ The mechanism is designed to stay in place once locked, making it completely tamper proof for safety.
- ✓ The felt is contained inside a rim to prevent deformation and increase longevity.
- ✓ New and improved felt for even longer lasting chair performance.
- ✓ The soft felt will eliminate noise from sliding chairs (teachers love it!) and keep floors clean from scratching and marring.
- ✓ Impervious to water, oil and most chemicals.
- ✓ 100% guaranteed to work with your chairs.
- ✓ The SNAP-N-LOC Glide Cap will save you hundreds of man hours and many dollars in floor repairs.
